

Name of the client- Noa Noa
Line of Retail – Fashion & Apparel
Caselet brief

Organization summary – Noa Noa's first store was opened in Denmark in 1981 and has since that time opened numerous stores in various countries, including two in Iceland. Noa Noa has been extremely popular due to the design and quality of the clothes and soon Noa Noa's manager found that they would need a strong and efficient information system in order to keep track of stock and have real-time information at their fingertips.

Challenge-To fully integrate the client's business using a single, scalable system
